

Buy a Brick. Leave a Legacy

*Everglades Restoration and Environmental Science Magnet
at South Plantation High School*

As we approach the 15th anniversary of the magnet program next year, it is time to reflect upon our legacy. As part of my Magnet Senior Research Project, I have partnered with our parent group, FERM (the Magnet program's 501(c)(3) Not-for-Profit organization), in an effort to expand our community and alumni outreach. The Legacy Brick project is a perfect opportunity for individuals, groups or organizations to leave an everlasting mark at South Plantation High School.

Commemorative bricks make great birthday, holiday or graduation gifts, to be used for honoring a family member, teacher, classmate, business, or even paying tribute to a loved one who has passed away. The proceeds from this project will benefit the upkeep of our school grounds, expansion of our recycling awareness program and the purchase of benches and tables to create an outdoor learning environment for Magnet students.

Your tax-deductible brick purchase enables you to become a lasting part of South Plantation High School history, while contributing to the academic growth and improvement of our student community for years to come.

If you have questions regarding the commemorative bricks you may reach us in the following ways:
